You need to produce a piece of work that you are proud of. This will contribute towards Humanities credits.

Your work will be marked when you come back to school.

If you think of a different topic you would like to look at in depth email me to check before you start.

Research:

Think carefully about where you may look for information.

Interview people

Documentaries

Websites

Biographies

You need to keep a record of everywhere you have looked.

How to present your work.

You can - produce a power point, a written project, a magazine, a display to put up in school when we come back. Whatever method you choose your work needs to reflect the amount of time you have spent on it - 1 hour per week. We will look at your presentation each online lesson.

Extra

In addition to researching and presenting you have a couple of other tasks to complete. I will introduce these at a later date.

Work Record

I want you to plan your time and keep a record of what you do.

This is a really useful skill for your future school life and for life in general. It is a bit like your ASDAN record or English targets.

Please keep a record of what you do and when, ask a grown up to help you.
